**EDITORIAL**

Copies of pocket directory Part Three were posted last week, mostly with the magazine. Please do let me know if you didn't receive the copy/copies you ordered. There are a few copies left for anyone who wants one.

Next week, several clubs who rarely use lights or have recently installed them have midweek fixtures including Altofts (page 5), Blackpool Wren Rovers, Longridge and Garstang (all page 7), Aylsham (page 11) and Fry Club (page 19).

Also, I've noted a few artificial pitches being used on Saturday, useful if the bad weather persists, which don't often crop up such as the double header at the Harraby Sports Centre in Carlisle (page 4), Lea Manor Leisure Centre in Luton (page 10), another double header at Moulsham High School in Chelmsford (page 12) and Pershore High School in Pershore, Worcestershire (page 18).

Several Sunday games have been pencilled in by the South West Peninsula League (page 19).

Finally, the correct post code for EBAC Northern League Division Two side Sunderland Ryhope CW is SR2 0AB.

Chris Bedford

## **BURT'S TRAVELS**

With little in the way of appealing fixtures last Saturday, 13th February, from a personal point of view, I decided to join the Captain on his trip east for the Cambridgeshire County League Premier Division fixture between **CHERRY HINTON** and Foxton. I like this league I must admit and have rarely seen a bad game in it. The visitors are usually one of the stronger sides in the division but have been struggling somewhat this season whereas the 'Cherries', after a storming start to the season, have tailed off somewhat into mid-table. The club play at the Cherry Hinton Recreation Ground which is situated just off the High Street that runs through the village, and a building housing the changing rooms, toilets and a room from where hot drinks were dispensed is located just inside the entrance. However, the club have received permission to build a new clubhouse on this spot which will improve facilities no end and club officials are buzzing at the prospect. One potential problem is that there is no car parking inside the ground so we had to use the street outside the ground for that purpose.

The pitch is positioned diagonally left from the changing rooms and runs widthways whilst being fully roped-off through circular stakes and has a magnificent playing surface. On the far side advertising banners are linked to the stakes to give a nice enclosed effect and these are enhanced by the bushes and shrubs that enclose this part of the venue. When approaching the pitch from the changing rooms a floodlit training area is to the right, with the 3rd team pitch running parallel to the main playing area on the near side. There is no covered accommodation at the ground but this did not present a problem as it didn't rain and the weather forecast given for the area was 100% correct as we left the rain behind on leaving the A1(M) at Baldock.

The game was excellent, an end-to-end affair that was full of exciting open football. Cherry Hinton took the lead in the ninth minute and held onto this advantage right up to the break. Foxton equalised seven minutes into the second half before taking the lead four minutes later but midway through the second half the 'Cherries' restored parity. However, with 20 minutes to go Foxton restored their lead and held on to win a close game by three goals to two, a victory they just about deserved in front of 25 spectators. Cherry Hinton do not issue programmes these days but they did produce them at one time – unfortunately no more. The most recent issue I was told was for their Centenary match against Cambridge United at the Recreation Ground a few seasons back.

I found Cherry Hinton to be a very friendly club that is full of people who like a good laugh – so refreshing in this day and age!

## **CRAIG DABBS VISITS MURSLEY UNITED**

On a cold Saturday afternoon, 13th February, I made the short journey to the village of Mursley for a SSML Division Two game, tempted because **MURSLEY UNITED** currently issue programmes and they obliged with a 36-pager sold for £1. Mursley United FC was formed in 1947 and played up to 1976, folding for a short while. They returned in 1978 as The Green Man in Sunday football before reverting back to the Saturday game in 1993. The ground is situated on the edge of the village and, although a little basic, it is a well looked after venue with a smart new clubhouse which doubles up as a community hall. Outside the hall is an overhang area which has a number of benches under it that could easily provide seating for more than 50 spectators; indeed it does feel more like a stand in its own right rather than just an overhang. The rest of the ground, which I liked, is open to the elements with views opposite the stand of the rolling fields off into the distance. On the pitch, second-placed Loughton Manor were the visitors and an excellent game took place on a heavy pitch with both sides matching each other in the first half, unexpected perhaps with Mursley being at the wrong end of the table. The second half started well and somewhat surprisingly Mursley went ahead which proved to be the end of Manor as the home side dominated the rest of the game to record a well-deserved 3-2 win, attendance 22.

## **NIGEL ROE VISITS ALCESTER TOWN**

On 13th February, I headed to the midlands for a Midland League Division Three game between **ALCESTER TOWN** and Barton United and was rewarded with an excellent afternoon's entertainment. In a game that was played at full pace throughout, the home side won 2-1 with all the goals coming in the first half. Alcester Town currently play on the old Stratford Road close to the hamlet of Oversley Green. On what is the old main road, the ground is easily found adjacent to a large nursing home, prominent signs outside the ground helpfully making the location quite visible. Entering the ground takes you immediately into a car park with the club building in front where there are the dressing rooms, a well-stocked and welcoming tea bar and a small club room. The building runs at an angle to the main pitch and attached to the front of this is a large area of cover which gives a view of the pitch from the corner. Rain, which wasn't forecast, didn't affect the pitch, which was in very good condition considering recent weather and didn't cut up at all. Down one side, the pitch is railed off with large plastic tubing (leaning rather precariously in places) and this extends part the way behind the near goal; the rest of the pitch is taped off. On the railed side are two metal dugouts. The match day programme, available for £1 from the tea bar, reports of plans to rail-off fully and purchase new dugouts as well as a desire to build a larger clubhouse.
